Proposed Expansion – 4 Woodside Dr.

Hello!

Thank you for considering this zoning variance for the expansion of our home. We are looking to expand in order to have my elderly parents live with us. The expansion is necessary to give them a garage and first floor living space so we can care for them. The apartment will not have a separate entrance and will be connected to our home.

The expansion will extend our current garage, add a floor above and go behind into our backyard.

The architect has worked with us so that the expansion will look like it belongs in the neighborhood.

We have already spoken to our neighbor nearest to the expansion and she has verbally agreed for us to build 10.1' from our property line if permitted. Please also note that the distance from our property line to the beginning of our neighbor's home/garage is 41'...so it will not look too close together.

Please see the survey attached and the proposed expansion sketched on it.

We great appreciate you taking the time to see what we have planned and hope that you will see that this expansion will not only add to the essential character of the surrounding neighborhood, but also relieve unnecessary hardship for our property and family.

Thank you!

VILLAGE OF WARWICK
INCORPORATED 1867

9/25/2023

RE: Proposed addition to existing house will infringe into the minimum side yard setback of 20ft.

Mr. Berry,

As discussed in the Building Department office regarding your proposed addition to your existing house, you intend to construct the addition into the existing minimum 20 feet required by Village Code for the side yard setback as noted in the Village Code Bulk Table requirement for single family dwellings. Because of this infringement into the required setback, an Area Variance will be required from the Zoning Board of Appeals which leads to the Building Permit application for this construction to be denied.

The Zoning Board of Appeals application shall be completed and submitted at your earliest convenience.

Respectfully,

Boris Rudzinski
