**2. RESOLUTION WAIVING ANY AND ALL OUTSTANDING UNDER
COLLECTED HEALTH INSURANCE PREMIUM CONTRIBUTION
PAYMENTS**

WHEREAS, between 2005 and 2016, the Village of Warwick miscalculated the amount of certain Village employees'/officers' health insurance premium contribution payments and under withheld the correct amount; and

WHEREAS, based upon the foregoing, certain health insurance premium contribution payments are currently outstanding to the Village from such Village employees/officers; and

WHEREAS, the Village first became aware of such outstanding reimbursement payments in 2017; and

WHEREAS, due to the passage of time, the statute of limitations, and the time and expense the Village would need to undergo in order to pursue the collection of such outstanding health insurance premium contribution payments, the Village Board of Trustees has determined that it is in the best interest of the Village to forego the collection of certain outstanding health insurance premium contribution payments rather than to incur the cost and expense of litigation.

NOW, THEREFORE, BE IT RESOLVED, that the Village Board of Trustees of the Village of Warwick hereby waives any and all outstanding under collected health insurance premium contribution payments from its non-unionized and non-elected employees/officers accrued between 2005 and 2016.

3. Proposed Action: Village of Warwick Reservoir Water Storage Tank Improvements

RESOLUTION DECLARING THE INTENT OF THE VILLAGE OF WARWICK VILLAGE BOARD TO ACT AS LEAD AGENCY

WHEREAS, the Village of Warwick (Village) is proposing the Village of Warwick Reservoir Water Storage Tank Improvements (Project), located in the Village of Warwick, Orange County, New York; and

WHEREAS, the Project has been classified as an “Unlisted Action” as defined by the State Environmental Quality Review Act (SEQRA) in 6 NYCRR Part 617.4; and

WHEREAS, it is the intent of the Village of Warwick Village Board to assume the role of “Lead Agency” for purposes of conducting a SEQRA assessment of the Project; and

WHEREAS, Part I of a Short Environmental Assessment Form (SEAF) has been completed, reviewed by the Village of Warwick Village Board, and will be circulated to all Interested and Involved Agencies for purposes of establishing the Village of Warwick Village Board as “Lead Agency” in accordance with 6 NYCRR Part 617.6(b).

NOW, THEREFORE, BE IT

RESOLVED AND DETERMINED, that the Mayor of the Village of Warwick hereby is authorized to sign Part I of the SEAF (page 3); and it is further

RESOLVED AND DETERMINED, that the Village of Warwick will send said Part I of the SEAF and associated site figure to the attached list of “Interested and Involved Agencies” under cover of a “Notice of Intent to Establish Lead Agency” letter for purposes of establishing Lead Agency status under the SEQRA; and it is further

RESOLVED, that the Mayor of the Village of Warwick and the Village Board, together with the Village of Warwick Attorney and B&L, are hereby authorized to take all actions, serve all notices, and complete all documents required to give full force and effect to this determination.

Re: Village View Cluster Subdivision

Dear Chairman Aulen:

I am writing this letter regarding the proposed Village View Cluster Subdivision. We reside on Locust St. and will be directly impacted by this development.

We have been attending meetings since August of 2018 regarding this subdivision which has changed at least twice since last year.

Some of the same issues and questions we had with the previous plan still apply and have not been answered as we had believed that they would be.

DEIS Narrative dated 6/5/2018 as well as the Full Appendix Village View DEIS Final there are several points of concern:

- 1) Flora and Fauna. Under F. Flora and Fauna in the DEIS it states that the site visits took place in April and September of 2005. Endangered and /or State Protected species of animals were not found on site however it is now 2019, thirteen (13) years later. Should that site not be revisited ?

In Table 12 of the Full Appendix Village View DEIS Final under Expected or Observed Reptiles and Amphibians there is no mention of any turtles. Having lived on Locust St. with the stream in our back yard for the past 35 years we have had turtles in our yard so it would be expected that there could be turtles in the wetland portion of the proposed subdivision.

- 2) Ground and Surface Water Resources Existing Conditions- This study was prepared in January of 2005. Also should be revisited and updated.
- 3) Stormwater Management - This is of particular concern as the stream bed culvert that runs behind our property has become quite swollen in heavy storms. With the loss of the vegetation and woodlands due to the construction of roads and sidewalks, driveways, etc. there is a potential for increased stormwater runoff onto our property. Presently in periods of heavy rain there is heavy water run off down Locust St. since there are no sewer drains . Many times rocks and debris end up on the street and in our driveway after such heavy rains.
- 4) Traffic- Locust St. is a rather narrow two lane road. With no sidewalks or paved shoulders it is difficult to walk our dogs on the street if traffic is coming both ways. One has to step off the roadway and onto neighboring lawns to let traffic pass. We can only imagine the difficulties with construction vehicles traveling the road. Daily there are many drivers traveling much faster than the posted 25 mph speed limit. There is also the constant danger of drivers we witness who do not stop at the stop

sign coming down the hill at the intersection of Sleepy Valley, Woodside and Locust. Adding at the very least 90 more vehicles on these roads would only increase the likelihood of accidents. This area is also used as a shortcut to bypass the heart of the Village. The traffic is not only of those who live in this neighborhood.

Data was only collected for the Traffic Study on 3 dates, two Thursdays and one Wednesday. One would think a Traffic Study would be collected for a continuous time period of at least a week to include weekends, Mondays and Fridays when traffic volumes might be heavier.

- 5) Wastewater Management- The DEIS states that the Village acknowledges that the storage and pump station currently have design flaws even though it was recently replaced in 2017. Adding 45 additional dwellings would only add to the problems currently encountered as well as increase our taxes if a new system is necessary in order to handle the Village View homes.

Also we now know that there will be phase 2 of the subdivision into the adjoining property located in the Town which will magnify the issues of the wastewater management and traffic.

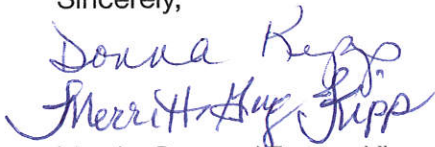

After the planning board meeting in June we spoke briefly with Kurt Rother outside regarding the traffic study. Kurt said no- there would not be a new study but that they would just be relooking at the study that was done. The board made mention and it was discussed at the July meeting, that there would be a new traffic study.

The June 17th Village Board meeting on page 7 of the minutes it states that the traffic study is being completely redone. So that is an issue of whether it is or it isn't.

Also we are aware that according to the June 4, 2019 From the Mayor's Office notice of the Wastewater Treatment Project/Tax Information that a major renovation has to occur to the system to the tune of 12 million dollars. This will be "one of the largest infrastructure projects in our recent history". We listened to the draft scope discussed at the July Planning Board meeting re: Village View where it was said that there would be no impact to the Village infrastructure.

Finally we would like to request that there be another public hearing on this subdivision before a decision is rendered.

Sincerely,

Handwritten signatures of Donna Kipp and Merritt Guy in blue ink.

Kirk Rother: I understand what you're saying Mr. Cheney, I just...we don't see in your code where you can do what you're asking us to do. You'll be effectively having fee simple lots with a zero-lot line on one-side. Right, if we're going to just say make a right of way around here then create a lot line here.

Trustee Cheney: Right, ok.

Kirk Rother: So, your code doesn't seem to allow that. If you find otherwise and that's what you desire, that's perfectly fine too.

Trustee Patterson: But, with the ZBA approval you could do that, right? If you did a lot line change. You're talking about not having the setback in between.

Kirk Rother: Yes, I suppose we could. The ZBA would have to grant a variance. Actually, maybe, I would have to reread the code, the Planning Board may even the power to grant waivers for some of the bulk requirements, I don't know.

Trustee Cheney: And the other thing that comes to mind immediately is that this arrangement only we've only removed three units from the previous plan and there were significant concerns about traffic and pedestrian safety. This doesn't really appreciably change those thresholds and I would assume that the Planning Board would pick that up in their considerations and deliberations relative to the Environmental Impact Statement. Those were definitely serious concerns.

Kirk Rother: So, the traffic study is being completely redone, reanalyzed to the same level as it was originally done, all the same intersections. Not only with this proposal, but we are including twenty-five additional homes that could be built in the Town in the traffic study. A comment this Board had had the last time I was here was related to your connective streets. You implied to have sidewalks on both sides. I have sidewalks on both sides of this plan.

So, the amount of open space on here is roughly 45% of the parcel, which is an increase of almost 10% of the prior plan. Now the way open space is defined in your code we shouldn't include areas allocated for stormwater management or grading. So, when I say 45% that's basically all that you see green here, green here, green here. I do have a pond, pond, some grading so as far as the definition of open space, it's around 35% when you subtract out the areas of the ponds.

Mayor Newhard: The last time that you showed us, you were making the comment that it was a 50% plan for open space.

Kirk Rother: Roughly, yes.

Dear Mayor Newhard & Village Board Members,
Village of Warwick Planning Board,

I am writing this letter concerning the Village Way development on Locust St and Woodside. I've been attending your meetings and Village Planning Board meetings for over a year. At the meetings, I usually remain quiet and listen attentively. I am not trying to prevent the development because the builder is entitled to build on his property. I'm asking him to follow the Village & Town building laws.

So, three things have been bothering me the last two weeks, (1) Mr. Jay Myron has resigned from the project due to a conflict of interest. ARE YOU KIDDING!!! He's been representing this builder through the development process since it was suppose to be only a village development. Someone needs to take a good look at this!!! At the last Village Planning Board meeting, He kept pushing to pass the 'Scoping Document' so the builder could proceed with

(2)

this development. Now, he resigns from the project and we conveniently have a replacement lawyer from Rockland County! REALLY???

Secondly, the wildlife on this property! No one has walked the property since the winter. I think the board needs to put on their hiking boots and walk the property now!! Experience the spring / summer wildlife on this property!

Thirdly, we've gone from building 28 homes to 43 homes! Are you kidding!! Also, Affordable housing?, 2 family homes?, why this development!!

Sincerely,
Barbara Hilley

Dear Mayor Newhard:

Warwick Valley High School will be hosting the return of the Homecoming Parade on Saturday, September 14, 2019. The parade will leave the bus garage at approximately 11:15 A.M. when the police escort arrives. The parade will involve both Town and Village limits, and will begin at the school's bus garage and continue down County Route 1 to Hathorn Rd arriving at 11:45 A.M. At this point, students who are walking in the parade will join us; this may take five minutes. We will then proceed up Main Street, passing slowly by the reviewing stand across the street in front of the TD Bank on Main Street for guests and judges. The parade will pass CVS and make a left onto Wheeler Ave. It will continue to the end of Wheeler Ave and make a right onto West Street and return to the bus garage. The Homecoming Game will follow the parade at 1:00 P.M. Saturday at the High School Football Field.

We would like to extend an invitation to you and your fellow public officials to be judges for this year's Homecoming Parade. Judges will have a reviewing stand for the parade across the street, in front of TD Bank on Main Street. District Administrators and members of the Board of Education are cordially invited to be our honored guests and judges as well. Please contact us via email at jjacobsen@wvcsd.org or abeauregard@wvcsd.org if you and/or your members can accept by Thursday, September 12th.

We hope that we have your support and participation in this event. Thank you for all of your continued cooperation.

Sincerely,

Jeffrey Jacobsen and April Beauregard
