Dear Village of Warwick Mayor and Board of Trustees; the following is a letter of recommendation for the purchase of two refrigerated composite samplers, with attached quotes. This purchase is being executed based on the recent NYSDEC inspection in which we were cited for this deficiency under "Part 750.25 of TOGS".

Refrigerated samplers are a niche market and so there are not many manufacturers offering quality units, after exhausting many avenues I was able to procure the following quotes. Of the three quotes, I would only consider 2 of the units to be of usefulness to us and reliable for accurate sampling (they are the HACH and ISCO) the Manning unit quoted below does not even have a heating system to avoid freezing.

As it turns out the inferior Manning unit was also not the lowest price, so I am recommending the lowest cost unit:

Hach model # ASA.CXXX2X21XX with a per unit price of \$4,642.26 with a backup power system.

TOTAL COST \$10,088.76 (no shipping cost, this unit is under NYS bid contract # PC67243)

The other models quoted were:

Manning model # YB8A2B2A2C3A1 with a per unit price of \$4,667.00 + shipping

ISCO model # 5800 with a per unit price of \$6,791.00 + shipping

If there are any further questions or concerns regarding this report, or any other related issue feel free to contact me at any time, either in my office (845) 986-6300 or on my cell phone (845) 866-0324.

Respectfully Yours
