Re: Convergent Battery Energy Storage System

Dear Mr. Rudzinski,

We acknowledge receipt of the three Notices of Violation¹ issued by your office on December 23, 2025, with regards to the battery energy storage system (BESS) located at 28 Church Street in the Village of Warwick, NY. We also acknowledge receipt of the letter of J&G Law, counsel to the Village, dated the same date.

Convergent takes this matter seriously and is committed to cooperating with the Village and its representatives.

The BESS in question is already de-energized and not in operation. Our intention and preference are to align with the Village on the next steps while prioritizing safety. To that end, we propose scheduling a call at a time that is convenient for you. Please let us know your availability; we will work around your schedule.

Nothing in this letter, nor any subsequent communications or discussions, is intended to constitute, and should not be construed as, admission of liability, fault, or wrongdoing of any kind.

Sincerely,

A handwritten signature in blue ink, appearing to read "Sebastián Villaveces". The signature is stylized with a long horizontal stroke extending to the right.

Sebastián Villaveces
Chief Legal and People Officer
Convergent Energy and Power
