## Instructions

## **General instructions**

When the alternative veterans exemption is granted based in part on a service-connected disability rating received from the United States Veterans Administration or the United States Department of Defense, evidence of continued exemption eligibility must be provided by the property owner if the disability rating increases or decreases.

The change in percentage of disability rating must be certified on this form (RP-458-a-Dis) and filed with the assessor prior to taxable status date in order for the exemption to be properly adjusted. Where property is located in a village which assesses, a separate renewal application should be filed with both the village and town assessors.

Taxable status date for most towns is March 1. Westchester County towns have either a May 1 or June 1 taxable status date; contact the assessor. In Nassau county, the taxable status date for towns is January 2. Taxable status date for most villages which assess is January 1; however, the village clerk should be consulted to insure certainty. Charter provisions control the taxable status date in cities, but in the City of New York, applications for this exemption may be filed on or before March 15. To ascertain the correct taxable status dates in cities, inquiry should be made of city assessors.
