Re: Convergent Energy and Power – Battery Energy Storage Facility
28 Church Street
Section 28, Block 2, Lot 10
L&G # 1802.58

Dear James Patterson, and Members of the Board:

Enclosed please find the revised Site Plans. The Plans have been updated to include utility pole numbers, tree removal restriction for the Indiana bat, and two locations for lights along with illumination characteristics.

I have attached nine copies of the Site Plan on behalf of our client, Convergent Energy & Power for the property located at 28 Church Street. We also enclosed a letter from Orange & Rockland stating that the proposed facility will be utilized by them for public use; a revised Emergency Response Plan with typographic errors corrected; and a Meeting Point location added; a Safety Record Response for other Convergent facilities; the cost of decommissioning; and copies of the certified notifications for the Public Hearing at the next Planning Board Hearing.

We kindly request that this matter be placed on the next available Planning Board meeting scheduled for December 8, 2020.

Sincerely,

David Griggs
