Michael J. Newhard, & Board of Trustees.

I am writing to request the installation of no parking signs on Woodside Drive and Crescent Avenue.

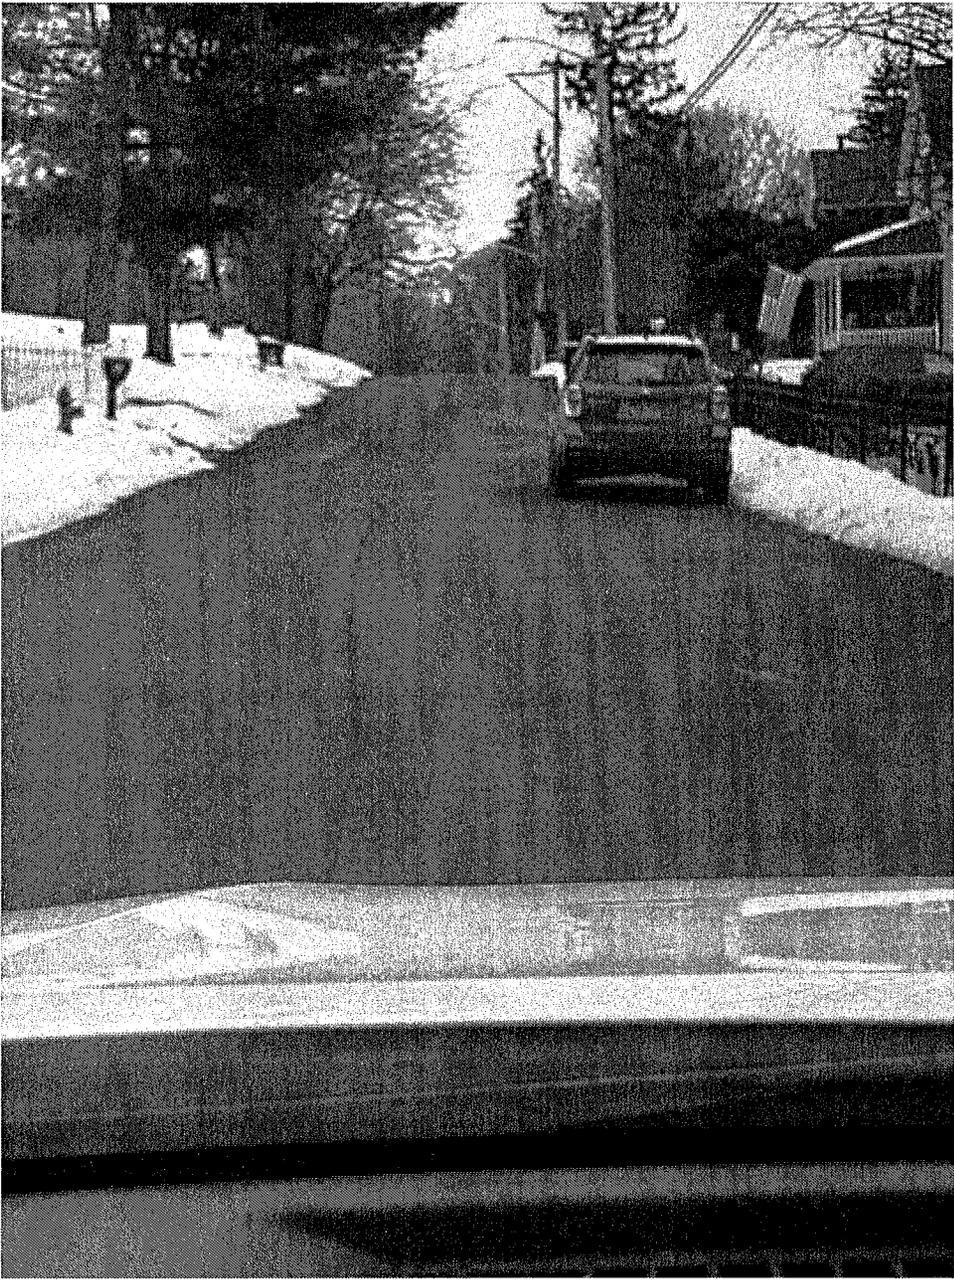

The streets are not wide enough to accommodate parking, particularly during winter months. If a resident is hosting a party and their driveway is insufficient, they may park on the street, sometimes blocking neighboring driveways. This was an incident on February 14, 2026, when my neighbors at 39 Woodside Drive were hosting a party and their vehicles were parked in front of my house, obstructing a portion of my driveway. As a result, vehicles had to maneuver around them.

Additionally, residents do not adhere to the 25 mph speed limit on our road, which serves as a bypass to avoid traffic congestion in town. When buses pass through, parked vehicles obstruct the road, forcing them to navigate around the obstructions, posing a hazard to both the buses and the children on board. Furthermore, a daycare center is located down the road, and during pick-up times, vehicles line up on the street, exacerbating the traffic congestion and creating a dangerous situation.

The Crescent Woodside stop sign at the top of the hill presents another safety concern. The visibility of vehicles parked there is limited, making it difficult to anticipate their presence. Similarly, at the bottom of Woodside Drive, where a stop sign is required before the crosswalk, obstructions obstruct the view of oncoming pedestrians, such as joggers or individuals crossing the street.

Given these safety concerns, it is imperative that the installation of no parking signs be considered before any accidents occur.
